Profile

Determined web developer with a passion to create and learn. Previous experiences as a fine artist and chemist creates a strong foundation of transferable skills into design and problem solving. Enthusiastic team member ready to build beautiful and meaningful things.

Experience

Software Engineer + DEI Co-lead, Refinery29; New York, NY – 2019-Present
Full-stack developer on consumer web platform built in React and PHP using MySQL & Redis. Facilitated CMS migration to Wordpress as a headless CMS. Strategized and prioritized roadmap in collaboration with product, establishing project timelines & goals. Hired and mentored new developers while establishing best practices for process and development.

Interactive Front End Engineer, Radish Lab; Brooklyn, NY – 2018-2019
Built responsive and accessible websites in React, Rails, Wordpress, and SquareSpace for this full service creative agency. Worked with back end developers to build a comprehensive product.

Front End Developer, Studio III Marketing; Glendale, CA – 2017-2018
Provided front end development and support for over 150 websites. QA and testing for existing websites. Advocated and implemented accessibility in legacy and new projects.

Software Engineer / Project Manager, CreativEngine; Culver City, CA – 2015-2017
Built, shipped, and maintained websites for over 50 members of Congress. Redesigned the UI and UX for our in-house CMS. Added features like a WYSIWYG website editor in React. Led the development team and interfaced with clients of over 35 websites in Congress.

Education

Cal Poly, San Luis Obispo – Chemistry, 2014
Dev Bootcamp NYC 2015
